

VALTERI

## Goes GEOCACHING

- it's about orientation
- it's about navigation
- its about mobility
- it's about using tools and aids
- it's problem solving
- it's teamwork
- and it's fun!

Geocaches are hidden everywhere:  
parks, city centre, forest...

You can locate "treasures" with GPS,  
smartphone or maps.

You can follow the compass arrow or  
read map. If you cannot see the  
arrow BlindSquare app tells direction  
to the cache.
